UX/UI Designer with a background in architecture and research and a strong drive to **creativity** and **users empathy**. Experienced in conducting **user research**, **usability tests**, and creating **user flows**, **wireframes**, and **high-fidelity prototypes** to deliver appealing and delightful user experiences. Looking for a **diverse and collaborative team** where I can apply my skills and develop my career.

Projects

Fit.square. Building a health & Fitness Web Application

CareerFoundry. June 2020 - January 2021

Applied the entire **product design process** to create a responsive Fitness Web Application that provides personalised fitness plans and coach support. I built rapid **prototypes** and **high-fidelity prototypes** to test and **validate** the design with potential users.
